

CODE EXERCISE

FORMS PART II

Ahhh...Summertime! Camp Feather River has hired to you to put their camper registration form online. They have the exact fields and text they need– but it's in PDF form. You'll need to use the existing PDF and create a web page that is usable and correct with the exact fields specified in the PDF. You can abbreviate the text content at the end of the form for convenience, but, all the fields must be there. Access the form at: https://drive.google.com/file/d/1jYj9_EFQ-3DIZHF_CbdmH0CZct2wKLy6/view?usp=sharing

Hint: For large text boxes that accommodate multiple lines of text, look up the `textarea` tag at <https://developer.mozilla.org/en-US/docs/Web/HTML/Element/textarea>. This was (deliberately) not covered in the video lecture.

To earn certification all exercises must be submitted and accepted.
